

Master Framework: 100 Advanced (C1-C2) Academic Writing Activities

Module 1: Research Architecture & Title Planning

1. **Activity 1**
2. **Title:** Structural Deconstruction of E-Commerce Growth
3. **Skill:** Research Architecture
4. **Subskill:** Instructional Analysis
5. **CEFR Level:** C1
6. **Objective:** To identify the core components of a research prompt using the Bailey framework.
7. **Instructions:** Analyze the prompt and categorize its components into the Instruction/Subject/Context table.
8. **Task Prompt:** "Summarise the main reasons for the growth of e-commerce since 2010 and discuss the likely results of this."
9. **Expected Answer/Output:** | Component | Analysis | | :--- | :--- | | **Instruction** | Summarise (Description) / Discuss (Evaluation) | | **Subject** | Growth of e-commerce / Likely results | | **Context** | Chronological (since 2010) |
10. **Difficulty:** Advanced
11. **Activity Type:** Analysis
12. **Activity 2**
13. **Title:** Medical Adherence: Diagnostic Title Breakdown
14. **Skill:** Research Architecture
15. **Subskill:** Instructional Analysis
16. **CEFR Level:** C1
17. **Objective:** Distinguish between descriptive instructions and specific research subjects.
18. **Instructions:** Map the following prompt into the required structural framework.
19. **Task Prompt:** "Describe some of the reasons why patients do not always take their medication as directed."
20. **Expected Answer/Output:** | Component | Analysis | | :--- | :--- | | **Instruction** | Describe (Give a detailed account) | | **Subject** | Reasons for non-adherence to medication | | **Context** | Not specified (General medical context) |
21. **Difficulty:** Advanced
22. **Activity Type:** Analysis
23. **Activity 3**
24. **Title:** Identifying Implicit Contexts in L2 Acquisition
25. **Skill:** Research Architecture
26. **Subskill:** Instructional Analysis
27. **CEFR Level:** C2
28. **Objective:** Identify both explicit and implicit contexts within a multi-part prompt.
29. **Instructions:** Analyze the title for instructions and subjects, noting the developmental context.

30. **Task Prompt:** "What are the benefits of learning a second language at primary school (age 6–10)? Are there any drawbacks to early language learning?"
31. **Expected Answer/Output:** | Component | Analysis | | :--- | :--- | | **Instruction** | What (Identify/List) / Are there (Evaluate/Discuss) | | **Subject** | Benefits and drawbacks of L2 acquisition | | **Context** | Explicit: Primary school (Age 6-10). Implicit: Cognitive/educational development. |
32. **Difficulty:** Mastery
33. **Activity Type:** Analysis
34. **Activity 4**
35. **Title:** Evaluating Renewables: Quantitative Context Mapping
36. **Skill:** Research Architecture
37. **Subskill:** Instructional Analysis
38. **CEFR Level:** C2
39. **Objective:** Break down a prompt that requires both empirical identification and critical evaluation.
40. **Instructions:** Use the Bailey framework to define the scope of the essay.
41. **Task Prompt:** "What are the most significant sources of renewable energy? Evaluate their contribution to the reduction of carbon emissions in the last 15 years."
42. **Expected Answer/Output:** | Component | Analysis | | :--- | :--- | | **Instruction** | What (Identify) / Evaluate (Decide worth/value) | | **Subject** | Sources of renewable energy / CO2 reduction | | **Context** | Chronological (Last 15 years) |
43. **Difficulty:** Mastery
44. **Activity Type:** Analysis
45. **Activity 5**
46. **Title:** Strategic Brainstorming: The L2 Advantage
47. **Skill:** Research Architecture
48. **Subskill:** Strategic Brainstorming
49. **CEFR Level:** C1
50. **Objective:** Generate a balanced list of points for a dual-focus prompt.
51. **Instructions:** Based on Title 3c, generate four benefits and three drawbacks of early language learning.
52. **Task Prompt:** Brainstorm points for the "Primary School L2" essay.
53. **Expected Answer/Output:**
54. **Benefits:** 1. Lowered inhibitions; 2. Superior memory capacity; 3. Enhanced understanding of L1; 4. Cultural open-mindedness.
55. **Drawbacks:** 1. Grammatical confusion; 2. Lack of cultural context; 3. Curriculum time conflicts.
56. **Difficulty:** Advanced
57. **Activity Type:** Production
58. **Activity 6**
59. **Title:** Energy Matrix: Source vs. Impact
60. **Skill:** Research Architecture
61. **Subskill:** Strategic Brainstorming
62. **CEFR Level:** C1

63. **Objective:** Link specific sources of energy to their environmental viability.
64. **Instructions:** List renewable sources and their carbon impact based on the "Renewable Energy" theme.
65. **Task Prompt:** Create a point-impact list for renewable sources.
66. **Expected Answer/Output:**
67. **Wind:** High availability day/night but remote sites.
68. **Solar:** Significant in sunny areas; zero night production.
69. **Tidal:** Massive potential but remains in development.
70. **Biomass:** Established but competes for scarce agricultural land.
71. **Difficulty:** Advanced
72. **Activity Type:** Production
73. **Activity 7**
74. **Title:** E-commerce Drivers Mind-Mapping
75. **Skill:** Research Architecture
76. **Subskill:** Strategic Brainstorming
77. **CEFR Level:** C1
78. **Objective:** Categorize geographic and technological drivers for industry growth.
79. **Instructions:** Use the "British Shoppers Go Online" text to find three growth factors.
80. **Task Prompt:** Brainstorm growth drivers for UK e-commerce.
81. **Expected Answer/Output:**
82. **Geography:** Small, densely populated (optimized for delivery).
83. **Technology:** Ubiquity and convenience of smartphones.
84. **Logistics:** Expansion of massive fulfillment centers and efficient parcel management.
85. **Difficulty:** Advanced
86. **Activity Type:** Production
87. **Activity 8**
88. **Title:** Proportional Planning: The 20% Rule
89. **Skill:** Research Architecture
90. **Subskill:** Proportional Planning
91. **CEFR Level:** C1
92. **Objective:** Calculate logical word-count allocations using the framing rule.
93. **Instructions:** For a 2,000-word essay, allocate word counts and explain the rationale based on Unit 1.5.5.
94. **Task Prompt:** Create a plan for a 2,000-word essay on L2 benefits.
95. **Expected Answer/Output:**
96. Intro/Conclusion (400 words): Follows the 20% rule to provide the frame.
97. Main Body (1,600 words): Must address "Benefits" and "Drawbacks" proportionally.
98. Benefits Section (approx. 900 words): Covers the three detailed points.
99. Drawbacks Section (approx. 700 words): Addresses the counter-points.
100. **Difficulty:** Advanced
101. **Activity Type:** Transformation
102. **Activity 9**
103. **Title:** Evaluative Balance: Tourism Impacts
104. **Skill:** Research Architecture

105. **Subskill:** Proportional Planning
106. **CEFR Level:** C2
107. **Objective:** Balance descriptive and prescriptive sections in a professional essay.
108. **Instructions:** Allocate percentages for the main body for the tourism prompt.
109. **Task Prompt:** "Describe the typical social... impacts. How can harmful impacts be reduced?"
110. **Expected Answer/Output:**
111. Part 1 (Impact Description): 50% (Requires synthesis of three distinct areas).
112. Part 2 (Reduction Strategies): 50% (Requires original evaluation of solutions).
113. **Difficulty:** Mastery
114. **Activity Type:** Transformation
115. **Activity 10**
116. **Title:** Justifying Proportions: IT in Schools
117. **Skill:** Research Architecture
118. **Subskill:** Proportional Planning
119. **CEFR Level:** C2
120. **Objective:** Defend the structural weighting of an essay based on instruction words.
121. **Instructions:** Allocate percentages for the following title and justify the weighting.
122. **Task Prompt:** "How can schools make better use of IT? Illustrate with examples from one country."
123. **Expected Answer/Output:**
124. Section 1 (General Methods): 40%.
125. Section 2 (Country Illustration): 60%.
126. Rationale: The instruction "Illustrate" requires the bulk of the content to be situated within the specific context of the chosen country to prove the general methods' viability.
127. **Difficulty:** Mastery
128. **Activity Type:** Transformation

Module 2: Synthesis, Paraphrasing & Academic Integrity

- **Activity 11**
- **Title:** Integrity Diagnostic: Patchwriting
- **Skill:** Academic Integrity
- **Subskill:** Plagiarism Judgment
- **CEFR Level:** C1
- **Objective:** Identify the ethical failure in minimal lexical substitution.
- **Instructions:** Evaluate the situation based on Unit 1.4.3.
- **Task Prompt:** "Copying a paragraph but changing a few words, not giving a citation."
- **Expected Answer/Output:** Plagiarism. This is "patchwriting"; it fails to acknowledge the original source and retains the author's structure.
- **Difficulty:** Advanced
- **Activity Type:** Evaluation
- **Activity 12**
- **Title:** Self-Plagiarism Ethics
- **Skill:** Academic Integrity

- **Subskill:** Plagiarism Judgment
- **CEFR Level:** C1
- **Objective:** Understand the boundaries of marked work reuse.
- **Instructions:** Determine the integrity status of the following action.
- **Task Prompt:** "Using a paragraph from an essay you wrote and had marked the previous semester, without citation."
- **Expected Answer/Output:** Plagiarism. This is self-plagiarism; work already assessed cannot be submitted as new research.
- **Difficulty:** Advanced
- **Activity Type:** Evaluation
- **Activity 13**
- **Title:** Defining Common Knowledge
- **Skill:** Academic Integrity
- **Subskill:** Plagiarism Judgment
- **CEFR Level:** C2
- **Objective:** Identify the threshold for non-citation.
- **Instructions:** Evaluate based on the Bailey criteria for common knowledge.
- **Task Prompt:** "Using something that you think of as general knowledge (e.g., Earth's climate is getting warmer)."
- **Expected Answer/Output:** Not Plagiarism. Widely accepted general facts do not require citation, though specific data on the degree of warming would.
- **Difficulty:** Mastery
- **Activity Type:** Evaluation
- **Activity 14**
- **Title:** Clerical Error vs. Malpractice
- **Skill:** Academic Integrity
- **Subskill:** Plagiarism Judgment
- **CEFR Level:** C2
- **Objective:** Distinguish between intent and mechanical error.
- **Instructions:** Analyze the situation based on Unit 1.4.3.
- **Task Prompt:** "Giving a citation for some information but misspelling the author's name."
- **Expected Answer/Output:** Technical Plagiarism. While considered carelessness rather than deliberate theft, it remains a failure of academic accuracy.
- **Difficulty:** Mastery
- **Activity Type:** Evaluation
- **Activity 15**
- **Title:** Triple-Technique Paraphrasing: Industrial Demand
- **Skill:** Synthesis
- **Subskill:** Triple-Technique Paraphrasing
- **CEFR Level:** C1
- **Objective:** Implement simultaneous lexical, structural, and class changes.
- **Instructions:** Rewrite the sentence from Allen (2009) using all three techniques.

- **Task Prompt:** "The best explanation for the British location of the Industrial Revolution is found by studying demand factors."
- **Expected Answer/Output:** A focus on demand may help to explain the UK origin of the Industrial Revolution.
- **Difficulty:** Advanced
- **Activity Type:** Transformation
- **Activity 16**
- **Title:** Word Class Shift: Cognitive Function
- **Skill:** Synthesis
- **Subskill:** Paraphrasing Techniques
- **CEFR Level:** C1
- **Objective:** Transform semantic focus through grammatical shifts.
- **Instructions:** Rewrite the sentence by changing "behavior," "approach," and "function" into different word classes.
- **Task Prompt:** "Another approach is to see the behaviour as a result of the way our brains function."
- **Expected Answer/Output:** Alternatively, we may approach such behavioral traits as products of neural functionality.
- **Difficulty:** Advanced
- **Activity Type:** Transformation
- **Activity 17**
- **Title:** Synonymous Substitution: Gender Cognitive Trends
- **Skill:** Synthesis
- **Subskill:** Paraphrasing Techniques
- **CEFR Level:** C2
- **Objective:** Replace academic descriptors with high-level equivalents.
- **Instructions:** Paraphrase using synonyms for "competent," "patterns," and "focus."
- **Task Prompt:** "Women are more competent at multi-tasking... although many are exceptions to these patterns."
- **Expected Answer/Output:** Females often demonstrate greater proficiency in managing simultaneous tasks... although many individuals do not fit these established trends.
- **Difficulty:** Mastery
- **Activity Type:** Transformation
- **Activity 18**
- **Title:** C2 Mastery: Structural Inversion and Nominalization
- **Skill:** Synthesis
- **Subskill:** Paraphrasing Techniques
- **CEFR Level:** C2
- **Objective:** Reorganize a sentence using nominalization to reach the highest academic register.
- **Instructions:** Rewrite the source text using both structural inversion and a shift from verbs to nouns.
- **Task Prompt:** "Recent research into brain functioning by Ragini Verma's team at the University of Pennsylvania has used brain scans to compare 428 men and 521 women."

- **Expected Answer/Output:** The utilization of neuroimaging technology in a comparative study of 521 females and 428 males was recently undertaken by a University of Pennsylvania team led by Ragini Verma to investigate brain functionality.
- **Difficulty:** Mastery
- **Activity Type:** Transformation
- **Activity 19**
- **Title:** Executive Summary: Automation in Harvesting
- **Skill:** Synthesis
- **Subskill:** Length Reduction
- **CEFR Level:** C1
- **Objective:** Condense a technical passage by 75% without losing key arguments.
- **Instructions:** Summarize the "Mechanical Pickers" text (Source 1.7.3) in approximately 50 words.
- **Task Prompt:** Provide a concise summary of the fruit harvesting automation text.
- **Expected Answer/Output:** Fruit harvesting is being automated in developed nations due to seasonal labor shortages and rising costs. New intelligent machinery, powered by advanced computing, now identifies ripe crops while simultaneously compiling essential productivity databases for farmers.
- **Difficulty:** Advanced
- **Activity Type:** Production
- **Activity 20**
- **Title:** Extreme Condensation: African Connectivity
- **Skill:** Synthesis
- **Subskill:** Executive Summary
- **CEFR Level:** C2
- **Objective:** Isolate the central thesis from a complex data set.
- **Instructions:** Summarize the "Africa Calling" text (Source 1.7.4) in 30 words or less.
- **Task Prompt:** Provide a high-level summary of the African mobile phone ownership text.
- **Expected Answer/Output:** While mobile ownership drives African economic growth, universal access remains hindered by rural infrastructure gaps, high taxation, and limited internet connectivity.
- **Difficulty:** Mastery
- **Activity Type:** Production

Module 3: Advanced Paragraph Architecture & Cohesion

- **Activity 21**
- **Title:** Sentence Function Identification: Spanish Language
- **Skill:** Paragraph Architecture
- **Subskill:** Structure Identification
- **CEFR Level:** C1
- **Objective:** Categorize sentences by rhetorical function.
- **Instructions:** Label the sentences in the "Spanish Language" paragraph (1.10.1).
- **Expected Answer/Output:**

- **Topic:** Spanish is one of the world's leading languages.
- **Support:** It is spoken by over 500 million people...
- **Reason:** This is a result of the growth of the Spanish colonies...
- **Extra Info 1:** Increasingly, Spanish is also widely used in North America...
- **Extra Info 2:** Spanish is a Romance language...
- **Difficulty:** Advanced
- **Activity Type:** Analysis
- **Activity 22**
- **Title:** Mapping Logic: Home Ownership
- **Skill:** Paragraph Architecture
- **Subskill:** Structure Identification
- **CEFR Level:** C1
- **Objective:** Restore logical flow to a scrambled paragraph.
- **Instructions:** Organize the sentences from 1.10.2 into the standard Bailey paragraph model.
- **Expected Answer/Output:** | Function | Sentence | | :--- | :--- | | **Topic Sentence** | iv (The rate of home ownership varies widely...) | | **Example 1** | v (Germany... Spain...) | | **Example 2** | iii (US and Britain...) | | **Reason** | i (Reasons appear cultural...) | | **Summary** | ii (No conclusive link...) |
- **Difficulty:** Advanced
- **Activity Type:** Analysis
- **Activity 23**
- **Title:** Transition Function: Concessive Topics
- **Skill:** Paragraph Architecture
- **Subskill:** Structure Identification
- **CEFR Level:** C2
- **Objective:** Identify how a topic sentence serves as a pivot between arguments.
- **Instructions:** Analyze the function of the opening sentence in 1.10.3.
- **Task Prompt:** "Despite this, many countries encourage the growth of home ownership." What is the dual function?
- **Expected Answer/Output:** It functions as a topic sentence for the new paragraph while simultaneously acting as a cohesive link (concession) to the previous paragraph's data.
- **Difficulty:** Mastery
- **Activity Type:** Analysis
- **Activity 24**
- **Title:** Categorizing Non-Essential Information
- **Skill:** Paragraph Architecture
- **Subskill:** Structure Identification
- **CEFR Level:** C2
- **Objective:** Discern the functional difference between support and supplementary facts.
- **Instructions:** Identify the role of sentences 4 and 5 in the Spanish Language paragraph.

- **Expected Answer/Output:** Extra Information 1 and 2; they provide relevant but non-essential context that does not directly support the primary "number of speakers" claim.
- **Difficulty:** Mastery
- **Activity Type:** Analysis
- **Activity 25**
- **Title:** Adverbial Cohesion Starters
- **Skill:** Paragraph Architecture
- **Subskill:** Structure Identification
- **CEFR Level:** C2
- **Objective:** Use adverbs to establish historical or current context.
- **Instructions:** List four adverbs from Unit 1.10.4 used to introduce paragraphs.
- **Expected Answer/Output:** Traditionally, Finally, Currently, Originally.
- **Difficulty:** Mastery
- **Activity Type:** Analysis
- **Activity 26**
- **Title:** Cohesion Engineering: The Tram System
- **Skill:** Cohesion
- **Subskill:** Cohesion Engineering
- **CEFR Level:** C1
- **Objective:** Link notes into a cohesive paragraph using conjunctions.
- **Instructions:** Using the notes in 1.10.5, write a paragraph using "Initially," "However," and "Consequently."
- **Expected Answer/Output:** Trams initially provided cheap and convenient transport in the late 19th century. However, because rail-based systems were inflexible and expensive to maintain, many cities closed them in the 1950s. Consequently, it is striking that they are becoming popular again today.
- **Difficulty:** Advanced
- **Activity Type:** Production
- **Activity 27**
- **Title:** Logic Restoration: Biochar Process
- **Skill:** Cohesion
- **Subskill:** Cohesion Engineering
- **CEFR Level:** C1
- **Objective:** Sequence sentences to mirror a scientific and historical progression.
- **Instructions:** Order the sentences from the first half of the Biochar text (1.1.8).
- **Expected Answer/Output:**
 - Wood is burned slowly in low oxygen to produce charcoal.
 - This was used to smelt iron until the discovery of coke.
 - Consequently, demand collapsed as CO₂ levels rose.
 - Recently, biochar has emerged as a tool to combat warming.
- **Difficulty:** Advanced
- **Activity Type:** Production
- **Activity 28**

- **Title:** Reference Word Precision: Biochar
- **Skill:** Cohesion
- **Subskill:** Cohesion Engineering
- **CEFR Level:** C2
- **Objective:** Replace repetitive nouns with academic reference words.
- **Instructions:** Rewrite the segment using "this process" or "such effects" to ensure flow.
- **Task Prompt:** "The process of decay allows CO₂ to return to the atmosphere. When transformed into charcoal this may be delayed..."
- **Expected Answer/Output:** The process of decay allows the carbon dioxide in plants to return to the atmosphere rapidly, but when transformed into charcoal this process may be delayed for hundreds of years.
- **Difficulty:** Mastery
- **Activity Type:** Transformation
- **Activity 29**
- **Title:** Synthesizing Conflict: Renewables
- **Skill:** Cohesion
- **Subskill:** Cohesion Engineering
- **CEFR Level:** C2
- **Objective:** Link opposing data points within a single complex sentence.
- **Instructions:** Combine the benefits of solar and wind power using "whereas."
- **Expected Answer/Output:** Solar power is highly significant in sun-rich regions, whereas wind power offers the distinct advantage of being available both day and night.
- **Difficulty:** Mastery
- **Activity Type:** Production
- **Activity 30**
- **Title:** Advanced Inter-Paragraph Linkage
- **Skill:** Cohesion
- **Subskill:** Cohesion Engineering
- **CEFR Level:** C2
- **Objective:** Create a thematic transition between disparate technology topics.
- **Instructions:** Write a transition sentence moving from "Trams" to "Biochar."
- **Expected Answer/Output:** While urban solutions like trams target transit emissions, broader environmental strategies, such as the sequestration of carbon through biochar, are increasingly necessary to address global CO₂ levels.
- **Difficulty:** Mastery
- **Activity Type:** Production

Module 4: Academic Argument & Counter-Argumentation

- **Activity 31**
- **Title:** Counter-Argument Balancing: Prisons
- **Skill:** Argumentation
- **Subskill:** Counter-Argument Balancing
- **CEFR Level:** C1
- **Objective:** Present a common claim and rebut it using the "But while..." structure.

- **Instructions:** Using 2.1.2, write a concession followed by a rebuttal.
- **Expected Answer/Output:** It is claimed that prisons are needed to isolate dangerous criminals; however, while this may be true in a minority of cases, more commonly prisons act as 'universities of crime'.
- **Difficulty:** Advanced
- **Activity Type:** Production
- **Activity 32**
- **Title:** Dismantling Digital Native Theory
- **Skill:** Argumentation
- **Subskill:** Counter-Argument Balancing
- **CEFR Level:** C1
- **Objective:** Use external evidence to refute a subjective claim.
- **Instructions:** Formulate a rebuttal to Prensky's theory using Bennett et al.
- **Expected Answer/Output:** While Prensky (2001) argues that the educational system must be revised for "digital natives," Bennett et al. (2008) maintain that these young people possess a wide range of abilities and often have only a limited understanding of digital tools.
- **Difficulty:** Advanced
- **Activity Type:** Production
- **Activity 33**
- **Title:** Home-Working Concession
- **Skill:** Argumentation
- **Subskill:** Counter-Argument Balancing
- **CEFR Level:** C2
- **Objective:** Neutralize a negative claim using a logical solution.
- **Instructions:** Refute the isolation argument using Unit 2.1.5.
- **Expected Answer/Output:** One view is that home-workers become isolated, but this can be avoided by holding weekly meetings for all departmental staff.
- **Difficulty:** Mastery
- **Activity Type:** Production
- **Activity 34**
- **Title:** Synthesizing Conflicting Pedagogy
- **Skill:** Argumentation
- **Subskill:** Counter-Argument Balancing
- **CEFR Level:** C2
- **Objective:** Combine two sources with opposing ethical views.
- **Instructions:** Synthesize the views of Dobrowsky and Campbell/Childs.
- **Expected Answer/Output:** Although Dobrowsky suggests social media is safer for children than playing outside, Campbell and Childs warn that these users are too young to understand the dangers of the virtual world.
- **Difficulty:** Mastery
- **Activity Type:** Production
- **Activity 35**
- **Title:** Definitive Stance Formulation

- **Skill:** Argumentation
- **Subskill:** Counter-Argument Balancing
- **CEFR Level:** C2
- **Objective:** Write a concluding stance based on weighed evidence.
- **Instructions:** Based on the "Digital Natives" text, summarize the consensus.
- **Expected Answer/Output:** Despite the digital proficiency of some students, there is no clear evidence of a need to radically change traditional teaching methods for a supposed "net generation."
- **Difficulty:** Mastery
- **Activity Type:** Production
- **Activity 36**
- **Title:** Impersonal Stance: Research Objectivity
- **Skill:** Argumentation
- **Subskill:** Impersonal Stance
- **CEFR Level:** C1
- **Objective:** Remove first-person pronouns.
- **Instructions:** Rewrite the sentence: "I think that certain people are better at self-management."
- **Expected Answer/Output:** The evidence suggests that certain people are better at self-management.
- **Difficulty:** Advanced
- **Activity Type:** Transformation
- **Activity 37**
- **Title:** Consensus Phrasing: Efficiency
- **Skill:** Argumentation
- **Subskill:** Impersonal Stance
- **CEFR Level:** C1
- **Objective:** Present a general benefit using formal consensus language.
- **Instructions:** Rewrite: "I think working from home saves a lot of time."
- **Expected Answer/Output:** It is widely agreed that working from home saves commuting time.
- **Difficulty:** Advanced
- **Activity Type:** Transformation
- **Activity 38**
- **Title:** Mitigating Subjectivity: Minority Views
- **Skill:** Argumentation
- **Subskill:** Impersonal Stance
- **CEFR Level:** C2
- **Objective:** Frame a biased opinion as a formal argument.
- **Instructions:** Transform: "I believe home-working just leads to people wasting time."
- **Expected Answer/Output:** It can be argued that home-working encourages time-wasting.
- **Difficulty:** Mastery
- **Activity Type:** Transformation

- **Activity 39**
- **Title:** Objective Attribution: Policy Gaps
- **Skill:** Argumentation
- **Subskill:** Impersonal Stance
- **CEFR Level:** C2
- **Objective:** Attribute a claim to an external authority rather than the self.
- **Instructions:** Rewrite: "I saw in a book that few companies have clear policies."
- **Expected Answer/Output:** According to Emerson (2003), few companies have developed clear policies regarding flexible work.
- **Difficulty:** Mastery
- **Activity Type:** Transformation
- **Activity 40**
- **Title:** Scholarly Stance: Probability
- **Skill:** Argumentation
- **Subskill:** Impersonal Stance
- **CEFR Level:** C2
- **Objective:** Transform a guess into a professional prediction.
- **Instructions:** Rewrite: "I think more companies will encourage home-working in the future."
- **Expected Answer/Output:** It is probable that more companies will encourage working from home.
- **Difficulty:** Mastery
- **Activity Type:** Transformation

Module 5: Rhetorical Rhetoric & Empirical Analysis

- **Activity 41**
- **Title:** Causal Chains: Focus on Causes
- **Skill:** Empirical Analysis
- **Subskill:** Causal Chains
- **CEFR Level:** C1
- **Objective:** Use conjunctions to highlight the origin of a result.
- **Instructions:** Link "poor harvest" and "higher prices."
- **Expected Answer/Output:** Because of the poor harvest, prices rose. (Or: Due to the poor harvest...)
- **Difficulty:** Advanced
- **Activity Type:** Transformation
- **Activity 42**
- **Title:** Causal Chains: Focus on Effects
- **Skill:** Empirical Analysis
- **Subskill:** Causal Chains
- **CEFR Level:** C1
- **Objective:** Use passive voice to highlight the result.
- **Instructions:** Rephrase Activity 41 starting with "The higher prices."
- **Expected Answer/Output:** The higher prices were caused by the poor harvest.

- **Difficulty:** Advanced
- **Activity Type:** Transformation
- **Activity 43**
- **Title:** Logic Reversal: Obesity Factors
- **Skill:** Empirical Analysis
- **Subskill:** Causal Chains
- **CEFR Level:** C2
- **Objective:** Switch rhetorical focus between biological cause and social effect.
- **Instructions:** Create two sentences about "Increase in obesity" and "Lack of exercise."
- **Expected Answer/Output:**
- A lack of exercise has led to an increase in obesity.
- The increase in obesity was produced by a lack of exercise.
- **Difficulty:** Mastery
- **Activity Type:** Transformation
- **Activity 44**
- **Title:** Utility Demand Logic
- **Skill:** Empirical Analysis
- **Subskill:** Causal Chains
- **CEFR Level:** C2
- **Objective:** Connect weather events to utility usage via conjunctions.
- **Instructions:** Link "Cold winter" and "Increased electricity demand."
- **Expected Answer/Output:**
- Owing to the cold winter, electricity demand increased.
- Increased electricity demand resulted from the cold winter.
- **Difficulty:** Mastery
- **Activity Type:** Transformation
- **Activity 45**
- **Title:** Conjunction Logic: Vaccination
- **Skill:** Empirical Analysis
- **Subskill:** Causal Chains
- **CEFR Level:** C2
- **Objective:** Distinguish between verbal and nominal conjunctions.
- **Instructions:** Rewrite: "Diseases declined because children were vaccinated" using "Because of."
- **Expected Answer/Output:** Because of the vaccination, diseases declined.
- **Difficulty:** Mastery
- **Activity Type:** Transformation
- **Activity 46**
- **Title:** Passive Voice: Charcoal Production
- **Skill:** Empirical Analysis
- **Subskill:** Passive Voice in Process
- **CEFR Level:** C1
- **Objective:** Describe a process without an actor.
- **Instructions:** Describe charcoal production in the passive.

- **Expected Answer/Output:** Charcoal is produced by burning wood slowly in a low-oxygen environment.
- **Difficulty:** Advanced
- **Activity Type:** Transformation
- **Activity 47**
- **Title:** Passive Implementation: Iron Smelting
- **Skill:** Empirical Analysis
- **Subskill:** Passive Voice in Process
- **CEFR Level:** C1
- **Objective:** Convert active history to objective academic register.
- **Instructions:** Rewrite: "Workers used this material to heat iron ore."
- **Expected Answer/Output:** This material was used to heat iron ore.
- **Difficulty:** Advanced
- **Activity Type:** Transformation
- **Activity 48**
- **Title:** Passive Utility: Biochar Benefits
- **Skill:** Empirical Analysis
- **Subskill:** Passive Voice in Process
- **CEFR Level:** C2
- **Objective:** Express claims using "It is claimed" and "It has been shown."
- **Instructions:** Rewrite the biochar soil benefits using passive reporting verbs.
- **Expected Answer/Output:** It is claimed that biochar can improve soil quality; furthermore, it has been shown that adding crop waste increases fertility.
- **Difficulty:** Mastery
- **Activity Type:** Transformation
- **Activity 49**
- **Title:** Agentless Scientific Reporting
- **Skill:** Empirical Analysis
- **Subskill:** Passive Voice in Process
- **CEFR Level:** C2
- **Objective:** Focus on the result of a transformation.
- **Instructions:** Describe the CO2 locking process in the passive.
- **Expected Answer/Output:** When transformed into charcoal, the return of CO2 to the atmosphere may be delayed for hundreds of years.
- **Difficulty:** Mastery
- **Activity Type:** Transformation
- **Activity 50**
- **Title:** Professional Recommendation: Passive Form
- **Skill:** Empirical Analysis
